

KENTH IAN E. CARADO

Challenge#8: External CSS and Responsiveness

The HTML:

```
<!--FAQ-->
<section class="question">
  <h1>Be Part of NDTC</h1>
  <p>Join us and be part of the NDTC community. The school that discovers your potential,
    enhances your skills, improves your way of living, and shapes <br>your culture of excellence.</p>
  <a href="" class="hero-btn">Frequently Asked Questions</a>
</section>
```

```
<link rel="stylesheet" href="style.css">
```

The CSS:

```
/*FAQ*/

.question{
  margin: 50px;
  width:100%;
  background-image: linear-gradient(rgba(0,0,0,0.7),rgba(0,0,0,0.7)),url(images/body.jpg);
  background-position: center;
  background-size: cover;
  text-align: center;
  padding: 100px 0;
  margin-left: 0;
}

.question h1{
  color: #fff6f4;
}

.question p{
  margin-bottom: 20px;
  color: #fff6f4;
}
```

Responsive(700px)

```
/*Section3*/  
@media(max-width:700px){  
    .question{  
        margin-left: 0;  
    }  
  
    .question h1{  
        font-size: 24px;  
    }  
}
```
